ABOUT ME

I am a professional frontend developer with 1.5 years of commercial experience, specializing in building web applications using React and Next.js. I am detail-oriented and strive to create fast, user-friendly, and modern solutions. I constantly study new technologies and practices to become a better developer. I approach tasks responsibly, integrate easily into team workflows, and aim for collective success. I am eager to strengthen a team with my experience, knowledge, and strong motivation to grow.

EXPERIENCE

- Unimay Media Frontend Developer
(May 2023 – January 2024)
I developed and styled a web platform for streaming animated content. I built web applications using React, JavaScript, and SCSS, implemented UI components based on Figma designs, and implemented frontend logic for seamless integration with backend services
- Fernir Full-Stack Developer
(Juny 2024 - Present)
I work on a commercial SaaS platform. I develop web applications using Next.js, TypeScript, and Node.js, set up project environments (ESLint, Prettier, Husky), integrate databases like PostgreSQL, and build backend APIs. My focus is on creating scalable and maintainable solutions.

EDUCATION

- Computer Academy IT Step Dnipro (2017-2020)
Graphic design courses. Creating Static Web Pages Using HTML5 and CSS3 UI/UX Basics. Graphic editor Adobe Photoshop. Creating interfaces for mobile applications and websites with Figma.
- Udemy Web development courses (2020-2022)
Front end courses. Basics of HTML and CSS layout. JavaScript (ES6, ES8, ES9, ES2020, ES2022) and React 18 framework
- Udemy Next.js & React – The Complete Guide (2024)
Deep understanding of Next.js (versions 13/14), App Router, Pages Router, API Routes, Server-side rendering (SSR), Static site generation (SSG), Client-side rendering (CSR), authentication strategies, and connecting to databases.
